

PECWeb Refinery Tracker

Dynamic, Current & Comprehensive Petroleum Refinery Intelligence

Petroleum Refining Industry Database

PECWeb Refinery Tracker is designed to streamline sales and marketing efforts for equipment and service providers pursuing business in the global petroleum refining marketplace. Access a world of information in this complete online refinery database and get the most up-to-date information available from any source.

- Plant, Area & Unit Information
- Major Capital & Maintenance Projects
- Daily Unit Turnaround Reporting
- The Latest Industry News Alerts
- Future Capacity
- Key Management Contacts
- Over 5,000 Plant, Area & Unit Contacts
- Over 2,500 Project Contacts

EVENT TRACKING

Major Projects – Global Coverage

Get the latest details on major projects around the world for the refining industry. Details include capital and maintenance projects valued at \$1 million and greater tracked from the planning stages on up to the construction and start-up phases. Access over 2,300 future capital and maintenance projects valued at \$459 billion. Coverage includes grassroots construction, unit additions, environmental compliance projects, modernizations, revamps, debottlenecks, refurbishments, overhauls, upgrades and major scheduled maintenance turnarounds.

WORLD REGION	ACTIVE PROJECTS		NEW PROJECTS - 12 MONTH PERIOD		ANNUAL UPDATES
	PROJECT COUNT	VALUE \$ BILLIONS	PROJECT COUNT	VALUE \$ BILLIONS	PROJECT COUNT
US & Canada	1,073	\$74.01	470	\$4.39	3,224
Latin America	384	\$126.10	249	\$43.61	588
Europe	429	\$22.26	330	\$5.86	468
RESEARCH EXPANSION AREAS					
Africa	73	\$59.74	19	\$10.95	72
Asia	322	\$176.58	115	\$27.11	272
Oceania	22	\$0.90	16	\$0.36	16
TOTAL	2,303	\$459.96	1,199	\$92.28	4,640

Unit Maintenance Turnaround Tracking

This unique database covers planned and unplanned maintenance turnaround activities for major refinery process units. Gain access to over 29,500 historical, ongoing and future unit turnarounds at over 514 Petroleum Refineries located in North America, Latin America, Europe, Africa, Asia and Oceania. Coverage includes integrated complex refineries and simple topping plants.

Future Capacity Tracking

IIR's New Future Capacity Database identifies new capacity additions and unit expansions for petroleum refineries located in North America, Latin America, Europe, Africa, Asia and Oceania. Coverage includes over 320 new build units and 6,200 future unit turnarounds. The database includes major processing units which include crude, reformers, cat crackers, cokers and hydrocrackers. Each report includes ownership, capacity increase, unit type, plus construction and start-up dates.

Providing Global Market Intelligence Constantly Living Forward

ASSET TRACKING

Plant, Area & Unit Coverage for Installed Capacity

Access a comprehensive database of over 580 operating refineries in North America, Latin America, Europe, Africa, Asia and Oceania. for data analysis, forecasting sales, and prospecting new opportunities. Details are provided on over 8,500 process units owned by refineries.

Area & Unit Contacts

Unique to this industry, IIR also identifies area and unit level contacts that are beyond the traditional functional plant management contacts. In this contact database you will find operations, engineering and maintenance supervisors, assistant managers and operators that are unique to the specific processing area or unit of the refinery.

WORLD REGION	INSTALLED BASE - OPERATIONAL ASSETS				FUTURE CAPACITY	
	PLANTS	REFINERY AREAS	REFINERY UNITS	CONTACTS	NEW BUILD UNITS	FUTURE UNIT T/A
US & Canada	177	589	3,712	2,715	132	1,898

Europe	133	391	2,977	991	18	2,792
RESEARCH EXPANSION AREAS						
Africa	18	15	63	10	33	31
Asia	182	136	557	647	123	518
Oceania	10	21	119	84	1	111
TOTAL	589	1,370	8,519	5,070	323	6,211

PECWeb Industry Trackers - Providing More Definitive Opportunities In Specific Markets

Get more definitive coverage through PECWeb's industry trackers. In addition to major capital and maintenance spending opportunities, you can receive details on:

PECWeb Power Tracker

Provides detailed information on the global Electric Power Industry.

- Operational plant and unit details
- Turbine, boiler and environmental equipment profiles
- Unit runtime and emissions output data
- Daily unit outage reporting
- New build unit activity
- Capital and maintenance project coverage
- Power Industry Outlook

PECWeb Natural Gas Tracker

Provides detailed information on the Natural Gas Storage, Transmission and Production Industry.

- Operational plant, area and unit details
- New build unit details for mechanical drives
- Equipment details on installed mechanical drives
- Capital and maintenance project coverage
